

TOBACCO PRICES STILL ON UPGRADE

Norman Jenkins Sells His Entire Crop For Average of \$55—Madison House Makes \$32 Average

It begins to look like the further they go the higher they get.

Reference is made to prices on the Richmond tobacco market. Prices paid for crops today are said to be the very highest of the season yet. Norman Jenkins sold his entire crop at an average of \$55 a hundred pounds. Can you beat it? You cannot.

The Madison House wound up its turn yesterday afternoon with a splendid average of \$32 for the entire day, which is a figure to shoot at, too. High prices were still the rule and everybody well pleased.

Several prominent pinhookers are said to be coining some easy money with the market steadily going up. A well known local pinhooker is said to have bought a prominent farmer's crop at 37 cents a pound—think of it, and then to have sold it over the breaks for \$400 profit. You can't beat that, either.

The selling shifted to the Home House today and its floors are loaded down with high class stuff; at least it all seems to be bringing high class prices. Tobacco is pouring into the Madison House for the next sales there. Some of the prices during the closing sales at the Madison House were:

Foodstuff Congestion at Ports

New York, Jan. 3.—Shipment of all classes of freight, particularly foodstuffs intended for American troops abroad, and to Europe's starving people are embargoed from other points of the country through the ports of Boston, Philadelphia, and New York for export, by order of the Federal Food Administration today. Food and supplies are accumulating on piers to such an extent it is impossible for it to be handled or cargo space provided for its transportation. The principal causes assigned were the freight handlers' strike, the disposition of owners to dry dock vessels, and decreased labor owing to the holiday season.

REDS MUST BE STOPPED BRITISH TELL HUNS

Otherwise Entente Will March Into Germany, Says Berlin Paper—Huns To Fight Poles for Posen

London, Jan. 3.—The Berlin Deutch Tages-Zeitung asserts that the British have presented a ultimatum to the German high command that it must prevent further Bolshevik advances into the Baltic provinces and retake Valk and Venden. It says if this is not carried out the entente will march into Germany. There is no official confirmation of these reports.

HUNS TO DEFEND POSEN

Basle, Jan. 3.—Havas—Several German army corps are concentrated on the border between Posen and Prussia according to a Frankfort newspaper, which adds that Germany has decided to defend her rights to the province of Posen. Reports Thursday were that a large force of Poles are advancing into Prussia toward Berlin.

PEACE CONFERENCE MEETS ON 13TH.

Paris, Jan. 3.—There is every likelihood, according to morning newspapers, that the preliminary peace conference between the four great allies will open January 13th. "This conference" says the Petit Journal, "will decide upon the terms to be imposed upon the vanquished peoples. It says a preparatory conference will be held in the French Foreign Office while the while the peace congress proper will meet at Versailles.

Admiral Rodman Says Sink German Warships

Washington, Jan. 3.—Rear Admiral Rodman, commander of the American fleet in the North Sea, during the war recommended to the House Naval Affairs Committee destructions of all the captured ships of the German navy surrendered to the allies. He said the German ships will not be needed and that they are of different type than those of the allies and that it will be a waste of money to maintain them.

LODGE DENIES LEWIS' CHARGES

Washington, Jan. 3.—Senator Lodge of Massachusetts, republican leader, replied to and denied in the Senate today the charge made yesterday of Senator Lewis, of Illinois, democrat, that the republicans are attempting to embarrass President Wilson abroad and to prevent unity in the Senate. He declared the peace negotiations should be completed as quickly as possible, for every day's delay made it more difficult to make peace with Germany.

The Best Cough Medicine

When a druggist finds that his customers all speak well of a certain preparation, he forms a good opinion of it and when in need of such a medicine is almost certain to use it himself in his family. This is why so many druggists use and recommend Chamberlain's Cough Remedy. J. B. Jones, a well known druggist at Auburn, Ky., says, "I have used Chamberlain's Cough Remedy in my family for the past seven years, and have found it to be the best cough medicine. I have ever known." HEAVY SLIDE BLOCKS NEW RED HOUSE PIKE

Thousand Yards of Dirt Come Down and Completely Cover Roadway River and Creeks Up.

Traffic has had to be entirely suspended over the new Red House pike to Winchester on account of a heavy slide in a cut, near the home of Rice Shifflett. County Road Engineer J. G. Baxter, who has been on the scene, says that it may require a week's time to get the dirt cleared up in time for traffic to be resumed.

Meanwhile, tourists to Winchester can get to the river ferry around the old Boonesboro pike. The heavy rains caused the damage, where a heavy cut had been made when the splendid new pike was constructed last year. It is estimated that fully 1,000 cubic yards of dirt came down, completely covering the roadway so that even a horse and buggy cannot get round. All work has had to be stopped by contractors Forbes and Moynahan on the Stonyrun bridge, until conditions improve.

The heavy rains did a lot of damage before the cold spell came along and helped things somewhat. The river and all its tributary creeks are way out of bounds, and a large amount of damage has been done. A traveler from Beattyville coming here yesterday said that the business men there were preparing to move out of their stores with the river right at their front doors, and going higher. At L. & E. Junction the L. & E. tracks are covered and trains to the mountains are being routed around the C. & O.

For Colds and Grippe Doctors Advise

Physicians are warning the public against trifling with colds, influenza and grippe. They say that a brisk calomel purgative, preferably Calotabs, the new and improved calomel tablet, should be invariably taken at bed time and repeated the second or third night, if necessary. In the earliest stages, one Calotab is usually sufficient unless the case is unusually severe.

Physicians say that it is a waste of time and is dangerous to experiment with other laxatives, as calomel is absolutely necessary sooner or later. One Calotab on the tongue at bed time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with diet, work, or pleasure. Next morning your cold has vanished and your whole system is purified and refreshed. Calotabs are sold only in original sealed packages, price thirty-five cents. Recommended and guaranteed by druggists everywhere. Price refunded if you are not delighted. It

Union Has 110 Flu Cases; Long Develops Pneumonia

Latest reports from the flu situation in the Union City section, where the malady seems to have hit the hardest recently, are that there are about 110 cases, and about 25 others with symptoms of the disease. Drs. Combs, Scudder, Gibson, Jeffries, Bosley and Williams and others have been working manfully and that there have been only two fatalities so far it is regarded as nothing short of remarkable.

Prof. Chester A. Long, principal of the High School, has developed bronchial pneumonia and his friends are greatly worried over his condition. Mrs. Hallie Noland is very ill at the residence of William Dunbar, where there are eleven cases. Seven out of nine cases at the home of Dan Tribble are reported to be doing well. There are about 35 families affected in this community and the entire neighborhood has been turned into a hospital, it seems.

Uncle Sam Wants Regular Army of 500,000 Volunteers

Washington, Jan. 3.—The War Department has reached no decision on the question of universal military service, Secretary Baker told the House Military Committee today. He indicated that no definite project for a permanent military establishment will be presented to Congress until the peace conference has concluded its work.

Asked whether it will be necessary to keep a large force in Europe for at least two years, he said:

"I hope that is not true. We are not planning for it." He said 700,000 men have been discharged from the army since the armistice was signed and that another million will be discharged within the next five weeks. He gave notice that a bill authorizing a regular army of half a million to be raised by voluntary enlistment will be submitted shortly to Congress to tide over the period until peace is re-established.

The Secretary asked advice regarding the disposition of the three artillery training camps, including West Point, Ky. He said it was necessary to decide whether they be purchased for permanent camps. He believed 16 national army cantonments should be purchased for divisional training centers for whatever army the nation decides to maintain.

WOMEN WORKERS

In almost every line of war activities the women of this country have done well and have taken the front rank for doing work that released thousands of men for service overseas. Some women have been over-ambitious, and, at the expense of their health, have filled places once occupied by men. Every woman who, because of overwork, has brought on some ailment peculiar to her sex, should depend upon Lydia E. Pinkham's Vegetable Compound to restore her health and strength, as this remedy is now recognized as the standard and has restored multitudes. It

WATER AND LIGHT INCREASES UP AGAIN

Council To Consider Question of Permitting Present Rates To Continue Longer—City Fathers Meet

The question of whether the city authorities are going to permit the Richmond Water and Light Company to continue the 10 per cent increase in rates to consumers, granted the corporation last year came before the City Council at its first regular meeting of the year Thursday night. Owing to the fact that this meeting came so close on the heels of New Years when usually every business man is engaged on his books, etc., it was decided to postpone the matter until the regular meeting the first Thursday in February. On Mr. O'Neil's motion the company was invited to have its representatives present at the next meeting and to show cause, if any, why the rates should not be lowered back to the scale charged before the war. It will be recalled that the council permitted this flat 10 per cent. increase in rates upon the company's showing that its costs had increased to such an extent on account of war conditions as to fuel, materials etc., that it could not make a reasonable profit at former rates. The year for which the increase was granted having expired it is now up to the council as to whether the company is to be allowed more time on the increased scale of rates. It is expected that officers of the company will have some figures ready to submit to the council at its next meeting.

The night was so bad from a climatic standpoint, that the City Fathers wasted no time but got right to business and finished up in short order. Councilman Terrill was the only absentee. City Collector J. D. Dykes presented his report for the year ending January 1st, which gave an interesting summary of the city's financial receipts for the year. His report in full was as follows:

1918 tax and penalty col.	\$49,102.94
1917 tax and penalty col.	3,183.75
1916 tax and penalty col.	194.89
1915 tax and penalty col.	82.07
1914, etc., tax and penalty col.	83.75

Distributed as follows:
Amt. paid to general fund—\$33,907.58
Amt. paid to school fund—15,032.28
Amt. paid to sinking fund—4,747.04

Total \$53,686.90
JESSE DYKES,
City Collector.

The regular monthly reports of the city officials showed collections of \$284.87 by Mr. Dykes during December; Chief of Police Devore showed collections of \$340 and the report of Police Judge Murray Smith showed that he had imposed fines to the amount of \$1,205 during December, and 500 days imprisonment in penalties, which is some record for one month. Street Commissioner Allman reported \$218.60 paid for labor in December.

Councilman Mershon reported that he had supervised the papering of the post house and it is in good condition. He was thanked for his work.

Dr. R. L. Clark asked the council to make correction in his assessment, lowering it from \$2,700 to \$1,500. He explained that he had become confused under the new tax laws, and first itemized the value of his stock and goods and then gave in the value in a lump sum. The council decided to postpone the matter until next night when City Assessor Trim Deatherage could be present.

Councilman Mershon said a number of citizens on Smith-Ballard street had reported a duck pond in the street near the residence of Mr. Wells which needed attention badly, and after the recent rains, was overflowing on the sidewalks. It was ordered that the trouble be fixed at once.

After discussing the water and light matter as above stated, the councilmen allowed accounts and adjourned.

ALL persons having claim against the estate of Mrs. Mary Dickman will present same not later than January 15th, to Miss Mayme Dickman, Administratrix. 27 4t
